

## T-2300

### A Full Complement of Features

The T-2300 is our Premier model of the CP-1 series. This unit optimizes the lifts performance by featuring the Key Box, Mechanical Cover and a fully Galvanized finish as standard equipment.

#### Key Box

The key operated switch is necessary for raising and lowering the platform. This Key Box will prevent unauthorized tampering and use.

#### Mechanical Cover

This Mechanical Cover protects the chains, automatic lock system and hydraulic cylinder from weathering. The cover can also be used effectively for advertising.
