

# SAFE-HIT

## GENERAL PURPOSE MARKING SYSTEMS

Safe-Hit's posts are ideal for a variety of marking applications, such as: fire hydrants, turn-outs, drain inlets & outlets, obstructions, hazards, turn-arounds, island-ends, route markers, 911 identification, call boxes, and mile markers.

A variety of reflective sheeting, custom decals, customer applied decals and barricade tape can be applied to meet your application needs.

Posts are available with surface mount, soil anchor, replaceable barrier marker and guard rail delineator configurations. Standard post colors are white, yellow and orange. Custom colors available are gray, green, blue, brown, black and red.
